

Cargile Fund

SEMI-ANNUAL REPORT

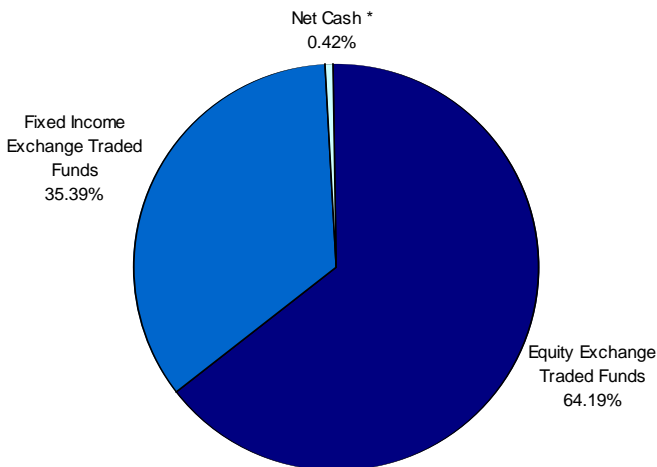

December 31, 2020

TICKER CFNDX

IMPORTANT NOTE: Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund or your financial intermediary electronically by calling or sending an email request. You may elect to receive all future reports in paper, free of charge. You can inform the Fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by calling or sending an email request. Your election to receive reports in paper will apply to all funds held with the fund complex/your financial intermediary.

Cargile Fund (Unaudited)

Cargile Fund by Sectors (as a percentage of Net Assets) December 31, 2020

*Net Cash represents cash, cash equivalents and liabilities in excess of other assets.

PERFORMANCE INFORMATION

December 31, 2020 NAV \$9.69

AVERAGE ANNUAL RETURNS AS OF DECEMBER 31, 2020

	<u>1 Year</u> ^(A)	<u>Since Inception</u> ^(A)
Cargile Fund	-4.36%	-0.31%

Annual Fund Operating Expense Ratio (from 10/30/2020 Prospectus): 1.95%

The Fund's expense ratio for the period ended December 31, 2020 can be found in the financial highlights included within this report. The Annual Fund Operating Expense Ratio reported above may not correlate to the expense ratio in the Fund's financial highlights because (a) the financial highlights include only the direct operating expenses incurred by the Fund, not the indirect costs of investing in acquired funds, and (b) the gross expense ratio may fluctuate due to changes in net assets and the application of breakpoints discussed in Note 4.

^(A)1 Year and Since Inception returns include change in share prices and in each case includes reinvestment of any dividends and capital gain distributions. The Cargile Fund commenced operations on July 9, 2018.

PAST PERFORMANCE DOES NOT GUARANTEE FUTURE RESULTS. INVESTMENT RETURN AND PRINCIPAL VALUE WILL FLUCTUATE SO THAT SHARES, WHEN REDEEMED, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. RETURNS DO NOT REFLECT THE DEDUCTION OF TAXES THAT A SHAREHOLDER WOULD PAY ON FUND DISTRIBUTIONS OR THE REDEMPTION OF FUND SHARES. CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE PERFORMANCE DATA QUOTED. TO OBTAIN PERFORMANCE DATA CURRENT TO THE MOST RECENT MONTH END, PLEASE CALL 1-888-204-1128. AN INVESTMENT IN THE FUND IS SUBJECT TO INVESTMENT RISKS, INCLUDING THE POSSIBLE LOSS OF THE PRINCIPAL AMOUNT INVESTED. THE FUND'S DISTRIBUTOR IS RAFFERTY CAPITAL MARKETS, LLC.

Disclosure of Expenses (Unaudited)

Shareholders of this Fund incur ongoing costs consisting of management and service fees. Although the Fund charges no sales loads or transaction fees, you will be assessed fees for outgoing wire transfers, returned checks and stop payment orders at prevailing rates charged by Mutual Shareholder Services, LLC, the Fund's transfer agent. IRA accounts will be charged an \$8.00 annual maintenance fee. Additionally, your account will be indirectly subject to the expenses of any underlying funds. The following example is intended to help you understand your ongoing costs of investing in the Fund and to compare these costs with similar costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested in the Fund on July 1, 2020 and held through December 31, 2020.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. In order to estimate the expenses a shareholder paid during the period covered by this report, shareholders can divide their account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6) and then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses paid by a shareholder for the period. Shareholders may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in other funds' shareholder reports.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as the charges assessed by Mutual Shareholder Services, LLC as described above and expenses of any underlying funds. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value <u>July 1, 2020</u>	Ending Account Value <u>December 31, 2020</u>	Expenses Paid During the Period* <u>July 1, 2020 to December 31, 2020</u>
Actual	\$1,000.00	\$957.31	\$7.65
Hypothetical (5% annual return before expenses)	\$1,000.00	\$1,017.39	\$7.88

- * Expenses are equal to the Fund's annualized expense ratio of 1.55%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

* Commencement of Operations.

** Not Annualized.

*** Annualized.

(a) Per share amounts were calculated using the average shares method.

(b) Realized and unrealized gains and losses per share in this caption are balancing amounts necessary to reconcile the change in net asset value for the period, and may not reconcile with the aggregate gains and losses in the Statement of Operations due to share transactions for the period.

(c) Total return represents the rate that the investor would have earned or lost on an investment in the Fund assuming reinvestment of dividends and distributions, if any.

(d) These ratios exclude the impact of expenses of the underlying investment security holdings listed Schedule of Investments.

(e) Recognition of the net investment income/(loss) by the Fund is affected by the timing of the dividends by the underlying investment security holdings listed on the Schedule of Investments.

The accompanying notes are an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS
CARGILE FUND
December 31, 2020
(Unaudited)

1.) ORGANIZATION

Cargile Fund (the "Fund") was organized as a non-diversified series of the PFS Funds (the "Trust") on June 21, 2018. The Trust was established under the laws of Massachusetts by an Agreement and Declaration of Trust dated January 13, 2000, which was amended and restated January 20, 2011. The Trust is registered as an open-end investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust may offer an unlimited number of shares of beneficial interest in a number of separate series, each series representing a distinct fund with its own investment objectives and policies. As of December 31, 2020, there were thirteen series authorized by the Trust. The Fund commenced operations on July 9, 2018. The Fund's investment objective is to seek long-term capital appreciation. The Fund pursues its investment objective by investing primarily in exchange traded funds and/or cash and cash equivalents. The Investment Adviser to the Fund is Cargile Investment Management, Inc. (the "Adviser"). Significant accounting policies of the Fund are presented below.

2.) SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 *Financial Services - Investment Companies*. The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Fund follows the significant accounting policies described in this section.

SECURITY VALUATION:

All investments in securities are recorded at their estimated fair value, as described in Note 3.

SHARE VALUATION:

The NAV is generally calculated as of the close of trading on the New York Stock Exchange (the "Exchange") (normally 4:00 p.m. Eastern time) every day the Exchange is open. The NAV is calculated by taking the total value of the Fund's assets, subtracting its liabilities, and then dividing by the total number of shares outstanding, rounded to the nearest cent. The offering price and redemption price per share is equal to the net asset value per share.

FEDERAL INCOME TAXES:

The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to shareholders. Therefore, no federal income tax provision is required. It is the Fund's policy to distribute annually, prior to the end of the calendar year, dividends sufficient to satisfy excise tax requirements of the Internal Revenue Code. This Internal Revenue Code requirement may cause an excess of distributions over the book year-end accumulated income. In addition, it is the Fund's policy to distribute annually, after the end of the fiscal year, any remaining net investment income and net realized capital gains.

The Fund recognizes the tax benefits of certain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years. The Fund identifies its major tax jurisdictions as U.S. Federal and State tax authorities; however, the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the six month period ended December 31, 2020, the Fund did not incur any interest or penalties.

DISTRIBUTIONS TO SHAREHOLDERS:

Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date.

The treatment for financial reporting purposes of distributions made to shareholders during the period from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense, or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for feder-

Notes to the Financial Statements (Unaudited) - continued

al income tax purposes. Any such reclassifications will have no effect on net assets, results of operations, or net asset value per share of the Fund.

USE OF ESTIMATES:

The financial statements are prepared in accordance with GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

OTHER:

The Fund records security transactions based on a trade date for financial statement reporting purposes. Dividend income is recognized on the ex-dividend date, and interest income, if any, is recognized on an accrual basis. The Fund uses the specific identification method in computing gain or loss on the sale of investment securities. Long-term capital gain distributions are recorded as capital gain distributions from investment companies, and short-term capital gain distributions are recorded as dividend income. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

EXPENSES:

Expenses incurred by the Trust that don't relate to a specific fund of the Trust are allocated pro-rata to the funds based on the total number of funds in the Trust at the time the expense was incurred or by another appropriate method.

3.) SECURITIES VALUATIONS

The Fund utilizes various methods to measure the fair value of most of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 - Inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

FAIR VALUE MEASUREMENTS

A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Equity securities (including exchange traded funds). Equity securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Adviser believes such prices accurately reflect the fair value of such securities. Securities that are traded on any stock exchange or on the NASDAQ over-the-counter market are generally valued by the pricing service at the last quoted sale price. Lacking a last sale price, an equity security is generally valued by the pricing service at its last bid price. Generally, if the security is traded in an active market and is valued at the last sale price, the security is categorized as a level 1 security, and if an equity security is valued by the pricing service at its last bid, it is generally categorized as a level 2 security. When market quotations are not readily available, when

Notes to the Financial Statements (Unaudited) - continued

the Adviser determines that the market quotation or the price provided by the pricing service does not accurately reflect the current fair value, or when restricted securities are being valued, such securities are valued as determined in good faith by the Adviser, subject to review of the Board of Trustees (the "Trustees" or the "Board") and are categorized in level 2 or level 3, when appropriate.

Money market funds. Money market funds are valued at net asset value provided by the funds and are classified in level 1 of the fair value hierarchy.

In accordance with the Trust's good faith pricing guidelines, the Adviser is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. There is no single standard for determining fair value, since fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of an issue of securities being valued by the Adviser would appear to be the amount which the owner might reasonably expect to receive for them upon their current sale. Methods which are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods.

The following table summarizes the inputs used to value the Fund's assets measured at fair value as of December 31, 2020:

Valuation Inputs of Assets	Level 1	Level 2	Level 3	Total
Exchange Traded Funds	\$35,188,509	\$0	\$0	\$35,188,509
Money Market Funds	20,144,540	0	0	20,144,540
Total	\$55,333,049	\$0	\$0	\$55,333,049

The Fund did not hold any Level 3 assets during the six month period ended December 31, 2020. The Fund did not invest in derivative instruments during the six month period ended December 31, 2020.

4.) INVESTMENT ADVISORY AGREEMENT AND SERVICES AGREEMENT

The Fund has entered into an investment advisory agreement ("Management Agreement") with the Adviser. The Adviser manages the investment portfolio of the Fund, subject to the policies adopted by the Trust's Board of Trustees. Under the Management Agreement, the Adviser, at its own expense and without reimbursement from the Trust, furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the assets of the Fund. The Adviser receives an investment management fee equal to 1.00% of the Fund's average daily net assets.

For the six month period ended December 31, 2020, the Adviser earned management fees totaling \$186,963. At December 31, 2020, the Fund owed \$29,979 to the Adviser.

Additionally, the Fund has a Services Agreement with the Adviser (the "Services Agreement"). Under the Services Agreement the Adviser receives an additional fee of 0.65% of the Fund's average daily net assets up to \$25 million, 0.35% of the Fund's average daily net assets from \$25 million to \$100 million, and 0.25% of such assets in excess of \$100 million and is obligated to pay the operating expenses of the Fund excluding management fees, brokerage fees and commissions, 12b-1 fees (if any), taxes, borrowing costs (such as (a) interest and (b) dividend expenses on securities sold short), ADR fees, the cost of acquired funds and extraordinary expenses. Additionally, under the Services Agreement the Adviser supervises the Fund's business affairs. The Adviser coordinates for the provision of the services of a Chief Compliance Officer for the Trust with respect to the Fund, executive and administrative services including, but are not limited to, the coordination of all third parties furnishing services to the Fund, review of the books and records of the Fund maintained by such third parties, and such other actions with respect to the Fund as may be necessary in the opinion of the Adviser to perform its duties under the Services Agreement.

For the six month period ended December 31, 2020, the Adviser earned services fees of \$103,246. At December 31, 2020, the Fund owed the Adviser services fees of \$16,863.

5.) RELATED PARTY TRANSACTIONS

Jeffrey R. Provence of Premier Fund Solutions, Inc. (the "Administrator") also serves as a trustee/officer of the Fund. This individual receives benefits from the Administrator resulting from administration fees paid to the Administrator by the Adviser.

Notes to the Financial Statements (Unaudited) - continued

The Trustees who are not interested persons of the Fund were paid \$750 each, for a total of \$2,250, in Trustees' fees for the six month period ended December 31, 2020 by the Adviser.

6.) INVESTMENT TRANSACTIONS

For the six month period ended December 31, 2020, purchases and sales of investment securities other than U.S. Government obligations and short-term investments aggregated \$216,057,674 and \$179,423,804, respectively. Purchases and sales of U.S. Government obligations aggregated \$0 and \$0, respectively.

7.) CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of December 31, 2020, Charles Schwab & Co. Inc., held for the benefit of its customers, in the aggregate, 69.95% of Fund shares. The Trust does not know whether the foregoing entity or any of the underlying beneficial holders owned or controlled 25% or more of the voting securities of the Fund.

8.) TAX MATTERS

For Federal income tax purposes, the cost of securities owned at December 31, 2020 was \$55,155,594.

At December 31, 2020, the composition of gross unrealized appreciation (the excess of value over tax cost) and depreciation (the excess of tax cost over value) of investments on a tax basis was as follows:

<u>Appreciation</u>	<u>(Depreciation)</u>	<u>Net Appreciation (Depreciation)</u>
\$177,455	\$0	\$177,455

The tax character of distributions was as follows:

	<u>Six Months Ended December 31, 2020</u>	<u>Fiscal Year Ended June 30, 2020</u>
Ordinary Income	\$ -0-	\$ 294,557
Long-Term Capital Gain	\$ 404,488	\$ -0-
	\$ 404,488	\$ 294,557

As of December 31, 2020, there were no differences between book and tax basis unrealized appreciation.

9.) COVID-19 RISK

Unexpected local, regional or global events, such as war; acts of terrorism; financial, political or social disruptions; natural, environmental or man-made disasters; the spread of infectious illnesses or other public health issues; and recessions and depressions could have a significant impact on the Fund and its investments and may impair market liquidity. Such events can cause investor fear, which can adversely affect the economies of nations, regions and the market in general, in ways that cannot necessarily be foreseen. An outbreak of infectious respiratory illness known as COVID-19, which is caused by a novel coronavirus (SARS-CoV-2), was first detected in China in December 2019 and subsequently spread globally. This coronavirus has resulted in, among other things, travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, significant disruptions to business operations, market closures, cancellations and restrictions, supply chain disruptions, lower consumer demand, and significant volatility and declines in global financial markets, as well as general concern and uncertainty. The impact of COVID-19 has adversely affected, and other infectious illness outbreaks that may arise in the future could adversely affect, the economies of many nations and the entire global economy, individual issuers and capital markets in ways that cannot necessarily be foreseen. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

10.) DEFENSIVE POSITIONS

The Fund may hold all or a portion of its assets in cash or cash-equivalents like money market funds, certificates of deposit, short-term debt obligations, and repurchase agreements, either due to pending investments or when investment opportunities are limited or market conditions are adverse. Under these circumstances, the Fund may not participate in stock market advances or declines to the same extent it would had it remained more fully invested in common stocks. If the Fund invests in shares of a money market fund, shareholders of the Fund generally will be subject to duplicative management and other fees and expenses. As of December 31, 2020, the Fund had 57% of the value of its investments invested in the Fidelity Investments Money Market

Notes to the Financial Statements (Unaudited) - continued

Government Portfolio – Class I. Additional information for this money market fund, including its financial statements, is available from the Securities and Exchange Commission's website at www.sec.gov.

11.) SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has concluded that there is no impact requiring adjustment to or disclosure in the financial statements.

ADDITIONAL INFORMATION December 31, 2020 (Unaudited)

1.) AVAILABILITY OF QUARTERLY SCHEDULE OF INVESTMENTS

The Fund publicly files its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-PORT. The Fund's Form N-PORT is available on the SEC's website at <http://www.sec.gov>.

2.) PROXY VOTING GUIDELINES

Cargile Investment Management, Inc., the Fund's investment adviser ("Adviser"), is responsible for exercising the voting rights associated with the securities held by the Fund. A description of the policies and procedures used by the Adviser in fulfilling this responsibility is available without charge on the Fund's website at www.cargilefund.com. It is also included in the Fund's Statement of Additional Information, which is available on the SEC's website at <http://www.sec.gov>.

Information regarding how the Fund voted proxies, Form N-PX, relating to portfolio securities during the most recent period ended June 30th, is available without charge, upon request, by calling our toll free number (1-888-204-1128). This information is also available on the SEC's website at <http://www.sec.gov>.

3.) LIQUIDITY RISK MANAGEMENT PROGRAM

The Fund has adopted and implemented a written liquidity risk management program as required by Rule 22e-4 (the "Liquidity Rule") under the Investment Company Act. The program is reasonably designed to assess and manage the Fund's liquidity risk, taking into consideration, among other factors, the Fund's investment strategies and the liquidity of its portfolio investments during normal and reasonably foreseeable stressed conditions; its short and long-term cash flow projections; and its cash holdings and access to other funding sources.

During the six month period ended December 31, 2020, the Board and the Trust's Liquidity Program Administrator reviewed a report from the Liquidity Program Administrator and reviewed the Fund's investments and they determined that the Fund held adequate levels of cash and highly liquid investments to meet shareholder redemption activities in accordance with applicable requirements. Accordingly, the Board concluded that (i) the Fund's liquidity risk management program is reasonably designed to prevent violations of the Liquidity Rule and (ii) the Fund's liquidity risk management program has been effectively implemented.
